Likan Zhan

· Add: 15, Xueyuan Rd., Haidian District, Beijing 100083, China

· Tel: +86 10 8230 3468

· Email: zhanlikan AT hotmail.com

· Personal website: https://likan.info

Academic appointment

2014.10 ~ Now, Assistant professor,
 MEG Laboratory for Brain Sciences,
 Institute for Speech Pathology and the Brain Science,
 Beijing Language and Culture University, Beijing, China

Education

- 2010.10 ~ 2014.09, Ph.D. Cognitive Science,
 Macquarie University, Sydney, Australia
- 2007.09 ~ 2010.07, M.E. Cognitive Psychology,
 Beijing Language and Culture University, Beijing, China
- 2000.09 ~ 2004.07, B.A. Teaching Chinese as a Second Language,
 Beijing Language and Culture University, Beijing, China

Teaching responsibilities

- · Statistics for the Behavioral Sciences, Read more..
- · R for Modeling and Visualizing Data, Read more..
- · Introduction to Cognitive Neuroscience, Read more..
- · Foundations of Scientific Research, Read more...

Professional skills

- · Statistics. I teached two statistical courses to master students. I have moderate experience in using *R* for statistical modeling and data visualization. Besides the basic ones, I used the following R packages a lot: *data.table*, *dplyr*, *ggplot2*, *car*, *lme4*, *gam* etc. I also created a R package myself, called *acqr*.
- Experimental techniques. I'm familiar with E-prime, Psychopy, Psychtoolbox, and Presentation for presenting test stimuli. I have advanced experience in using Eyelink II/1000 plus (SR Research Ltd.), such as Experiment Builder for experiment building, and Data Viewer for data analysis. I am in charge of establishing the first Child MEG lab in China, familiar with Yokogawa MEG system for equipment maintenance and MEG data acquisition. I'm also familiar with BESA, and some Matlab packages for analyzing the E/MEG data, such as fieldtrip and SPM12.
- Typesetting. I like to write with LaTeX, Markdown, and R Markdown. I created a personal website with hugo and blogdown.

Publications

- 1. Periodicals
- **Zhan, L.**, Zhou, P., & Crain, S. (In Press). Using the visual-world paradigm to explore the meaning of conditionals in natural language. *Language, Cognition and Neuroscience*. doi: 10.1080/23273798.2018.1448935
- **Zhan, L.** (2018). Scalar and ignorance inferences are both computed immediately upon encountering the sentential connective: The online processing of sentences with disjunction using the visual world paradigm. *Frontiers in Psychology*, 9. doi: 10.3389/fpsyg.2018.00061 FullText
- Moscati, V., Zhan, L., & Zhou, P. (2017). Children's on-line processing of epistemic modals. *Journal of Child Language*, 44(5), 1025-1040. doi: 10.1017/S0305000916000313
 FullText
- **Zhan, L.**, Crain, S., & Zhou, P. (2015). The online processing of only if- and even if- conditional statements: Implications for mental models. *Journal of Cognitive Psychology*, 26(7), 367-379. doi: 10.1080/20445911.2015.1016527 FullText

- · Zhou, P., Crain, S., & **Zhan, L.** (2014). Grammatical aspect and event recognition in children's online sentence comprehension. *Cognition*, 133(1), 262-276. doi: 10.1016/j.cognition.2014.06.018 FullText
- · Zhou, P., Crain, S., & **Zhan, L.** (2012). Sometimes children are as good as adults: The pragmatic use of prosody in children's on-line sentence processing. *Journal of Memory and Language*, 67(1), 149-164. doi: 10.1016/j.jml.2012.03.005 FullText
- · Zhou, P., Su, Y., Crain, S., Gao, L., & **Zhan, L.** (2012). Children's use of phonological information in ambiguity resolution: a view from Mandarin Chinese. *Journal of Child Language*, 39(04), 687-730. doi: 10.1017/S0305000911000249 FullText

2. Presentations

- **Zhan, L.** (2017, September). Scalar implicature and ignorance inference are both locally computed: Evidence from the online processing of disjunctions using the visual world paradigm. Paper presented at the Second High-level Forum on Cognitive Linguistics, University of International Business and Economics, Beijing, China
- · Moscati, V., **Zhan, L.**, & Zhou, P. (2013). Reasoning on possibilities: An eye tracking study on modal knowledge. In the 38th Annual Boston University Conference on Language Development. Boston, USA.
- · **Zhan, L.**, Crain, S., & Zhou, P. (2013). Going beyond the information that is perceived: The hypothetical property of if-conditionals in Mandarin Chinese. In the *Second International Conference on Psycholinguistics in China*. Fuzhou, China.
- **Zhan, L.**, Crain, S., & Zhou, P. (2013). The hypothetical property of "if"-statements: A visual-world paradigm eye-tracking study. In *CUNY2013: The 26th annual CUNY Sentence Processing Conference*. Columbia, SC.
- **Zhan, L.**, Crain, S., & Zhou, P. (2013). The interpretation of conditionals. In the 7th International Conference on Thinking (ICT2012). Birkbeck/UCL, London, UK.
- · Zhou, P., Crain, S., & **Zhan, L.** (2013). Anticipatory eye movements in children's processing of grammatical aspect. In the 38th Annual Boston University Conference on Language Development. Boston University, United States.

- · Zhou, P., Crain, S., & **Zhan, L.** (2012). Children's pragmatic use of prosody in sentence processing. In the 35th Generative Linguistics in the Old World (GLOW) Workshop: Production and Perception of Prosodically-Encoded Information Structure. University of Potsdam, Potsdam, Germany.
- **Zhan, L.**, Crain, S., & Khlentzos, D. (2011). The basic semantics of conditionals in natural language. In *The Harvard-Australia Workshop on: Language, Learning and Logic*. Macquarie University, Sydney, Australia.
- · Zhou, P., Crain, S., Gao, L., & **Zhan, L.** (2010). The role of prosody in children's focus identication. In the Generative Approaches to Language Acquisition North America 4 (GALANA- 4). Toronto, Canada.
- · Zhou, P., Su, Y., Crain, S., Gao, L., & **Zhan, L.** (2010). Children's use of prosodic information in ambiguity resolution. In the 8th Conference of Generative Linguistics in the Old World Asia (GLOW-in-Asia 8). Beijing, China.
